

Department of Management Sciences

Action taken report

The 10th Board of Studies (BoS) meeting was held in hybrid mode on 12.09.2025 (Friday) 12.00 pm at Board room, Hindusthan Institute of Technology, Coimbatore. The action taken on the feedback and suggestions given by the BoS members are as follows.

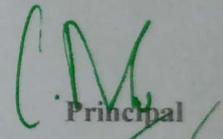

S. No	Suggestion given by the BOS members	Action taken	Justifications
Dr. Ram Kumar, Associate Professor, PSG Institute of Management, PSG College of Technology			
1	It was advised that the <i>Human Resource Management</i> course should adopt Dr. K. Aswathappa's textbook as the primary reference, in place of VSP Rao, as it provides more comprehensive coverage of foundational and applied aspects of HR.	The recommendation to follow Dr. K. Aswathappa's textbook for <i>Human Resource Management</i> was approved, and the syllabus will be updated accordingly from the next academic session.	Highlighted that Dr. Aswathappa's work includes updated concepts, practical illustrations, and industry-oriented insights that will benefit students in understanding HRM more effectively.
2	It was strongly recommended to strengthen the foundational aspects of Human Resource Management (HRM) in the <i>Human Resource Management</i> course, ensuring students gain clarity on the core principles and practices.	Instructions were made to include mini-projects, and role-play exercises to reinforce understanding of the basics in real-life contexts.	Suggested that a conceptual-to-practical approach be adopted, where basics are thoroughly taught before progressing to advanced HR strategies
3	It was proposed to incorporate a dedicated topic on <i>Professional Ethics</i> within the <i>Entrepreneurship Development</i> course to sensitize students about ethical practices in business.	Professional ethics topic is added in Entrepreneurship Development course emphasizing the importance of ethical decision-making and corporate social responsibility as integral aspects of entrepreneurial success.	Recommended to include case studies on ethical dilemmas faced by entrepreneurs to help students apply theoretical concepts to real-world situations.
4.	It was recommended that <i>case studies</i> be incorporated across all courses and made a mandatory component of the curriculum to enhance practical understanding.	The suggestions have been taken for consideration by adding case study assessments as part of internal evaluation to strengthen analytical and critical thinking skills.	Faculties are instructed to integrate industry-based examples and real-time problem-solving exercises alongside case studies to improve application-oriented learning.
Dr. G. Sritharan, Associate Professor, Bharathiar School of Management and Entrepreneur Development (BSMED), Bharathiar University, Coimbatore.			
1	It was suggested to include a dedicated topic on Financial Services in the <i>Financial Management</i> course to enhance students' exposure and practical understanding of the financial sector	The Board approved the inclusion of a Financial Services topic in the <i>Financial Management</i> course	Recommended to integrate case studies and real-world examples from the financial services industry to develop analytical and decision-making abilities

Department of Management Sciences

2	Member emphasized that knowledge of banking services, insurance, mutual funds, leasing, venture capital, credit rating, and fintech innovations would equip students with industry-relevant skills	Faculty members have been instructed to design case studies and assignments around financial services to provide practical exposure.	The internal assessment framework will be updated to include evaluations on financial services through projects, presentations, and case discussions
Dr. R. Maheswaran, Vice President, KGISL Group of Companies			
1	Member emphasized the importance of experiential learning as a means to bridge the gap between theory and practice.	Plans were made to encourage collaborations with industries for sourcing live cases and problem statements for classroom discussion.	Suggested that case analyses be made a mandatory component of pedagogy and evaluation, ensuring students develop critical thinking, problem-solving, and decision-making skills.
