Innovations in Teaching Learning Process

Name	ARUN R
Subject Code & Title	20MB101 Organizational Behaviour and Accounting
Academic year & Semester	2023-2024 & VII Semester

Innovative Tool: Survey Monkey

Objectives: The objectives of using Survey Monkey for students can vary depending on the specific goals and needs of the students and the educational context.

Description: Survey Monkey is an online survey platform that allows users, including students, to create and distribute surveys for various purposes.

Outcome: In terms of OB this tool is used to express their views on Work Culture and behaviour of the students in the working environment.

Innovative Tool: Flipped Class Room

Objectives:

Encouraging active participation and engagement in the learning process. With traditional lectures moved outside the classroom, students can engage with the material at their own pace and revisit content as needed.

Description: A flipped classroom works as follows: students take in the initial information at home, then attend the class and engage in a debate, or a series of debates, with their peers. Various studies have found that the act of debating can enhance student engagement, while also improving learning outcomes. For this we have used Google classroom, in which separate classroom is created for this subject and the recorded video, e-text book, and other subject materials related to OB are posted in the classroom.

Outcomes:

Students often have the opportunity to review instructional materials at their own pace, leading to better understanding and retention of the content. The ability to revisit materials as needed can enhance long-term learning.

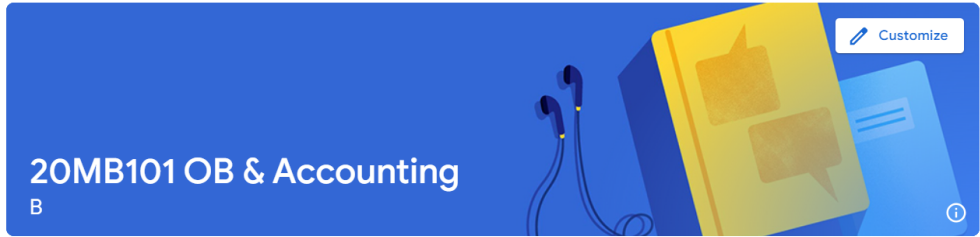

Photos:

The screenshot shows the 'My Account' page in SurveyMonkey. At the top, there is a dark navigation bar with a menu icon, a user profile icon, and the email address 'arun.r@hit.edu.in'. Below this, the 'SurveyMonkey' logo is prominently displayed. The main heading is 'My Account', followed by three tabs: 'ACCOUNT SUMMARY' (which is active), 'BILLING DETAILS', and 'TRANSACTION HISTORY'. The 'Account Details' section shows the current plan as 'Basic (Free) Account' with '25 responses per survey'. There is an 'Upgrade' button. Below this, it shows 'Survey data storage: 1' and 'United States'. On the right side, there is a 'NEED HELP?' section with three links: '24/7 email customer support', 'UPGRADE for phone support', and 'Visit our Help Center'.

The screenshot displays the 'Organizational behaviour' survey design interface. At the top, a progress bar shows the steps: 'SUMMARY' → 'DESIGN SURVEY' (active) → 'PREVIEW & SCORE' → 'COLLECT RESPONSES' → 'ANALYZE RESULTS' → 'PRESENT RESULTS'. The left sidebar contains various design tools: 'Build', 'Style' (active), 'Logic', 'Options', 'Question Bank', 'Format', and 'Paid Features'. The 'Style' panel is open to 'SETTINGS', showing 'YOUR LOGO' with a preview image of a meeting scene. Below the preview, there are 'Size' options: 'Actual Size', 'Small', 'Medium', and 'Large' (which is selected). The main workspace shows the survey title 'Organizational behaviour' with a 'PAGE TITLE' button. Below the title, there is a question '1. Employee Satisfaction' with a comment icon and a text input field.
